From the rear cover:

Dr Billy Leonard brings a wealth of personal and political experiences to bear on his subject of a united Ireland. His journey from unionism, including a period in the part-time Royal Ulster Constabulary Reserve, to republicanism, including his time as an elected representative, help make this a unique book. The author lifts the topic away from the mere aspirational call to outlining the political work that needs to be done. It is constantly punctuated with personal recollections and strong recommendations. Whatever your opinion on Irish unity this book makes a major contribution.

Review:

This is a timely and thought provoking book at an important time in the history of Ireland. The author's own unique perspective and background adds greatly to its insights.

Niall O'Dowd, founder and editor of the Irish Voice and founder of IrishCentral.com., extensively involved with President Bill Clinton in the Irish peace process.
